

## AUDIENCE WELL PLEASED LAST EVE AT PAVILION

A woman's wit, wiles and cleverness working against one of the money kings of the world who practically controls the national government and who has always gratified his every wish, was demonstrated last evening at the Pavilion theater when Henry B. Harris presented the dramatization of the famous novel, "The Lion and the Mouse." The play was well acted and was appreciated by the audience. The part of John Burkett Ryder, the master of finance, was ably portrayed by Paul Everton and the audience had the pleasure of witnessing some, clever acting. Shirley Rossmore, to whom Ryder eventually acknowledges defeat, when off the stage is known as Edna Archer Crawford, and is a clever actress, her work being that of an accomplished artist. The piece has a sprinkling of comedy throughout, and also has the usual love affair.

At the beginning of the performance part of the effect was lost on the audience by the arrival of a number of people who appear to have but one thought, and that is to display some new gown or the latest creation in hat wear. They seem to think nothing of the discomforts of those who arrive in time to see the curtain rise, but come late so as to give all a chance to witness their arrival. In most theaters no one is allowed to take their seat during an act, and have to wait until the intermission. It would not be a bad idea if the management of the Pavilion would adopt this plan.

## W. B. O'CONNELL IS IN THE TOILS AT GOLDFIELD

W. B. O'Connell of this city, and who went to Goldfield several days ago on the advice of the justice court here, which asked him to leave for six months, is the guest of Sheriff Bradley in the southern city. Evidently O'Connell's love for the booze route was the cause of his undoing and he now stands a chance of going on the "water wagon" for some months. The Tuesday morning Goldfield Tribune has the following to say about O'Connell's misfortune: "An old offender, W. B. O'Connell, was taken to a cell by Under Sheriff Mike Cahalan. O'Connell has served eight or ten months in this county, and is said to have a six months' 'float' over his head in Tonopah. He went to the home of Mrs. Charles Flett, 682 Columbia, Sunday night, and not obtaining entrance through the door, promptly smashed a window through which he crawled. His hands were severely cut during the operation, and the county physician was compelled to treat him twice for fear he would bleed to death. Once inside of the Flett house he is said to have broken the furniture, cursed every one far and near, and nearly upset a lighted lamp. He will probably live at the county's expense for some months."

## ELKS' MINSTRELS GIVE UP GHOST AT THE LAST MINUTE

Last evening the Elks at their meeting decided not to give their minstrel show at Reno, Carson and Virginia City as they had intended to and the dates will be cancelled. A telegram was sent to W. K. Wise, who left yesterday morning to perfect the arrangements in these cities, telling him to cancel the engagements. A large number of the members were unable to leave their business duties was the cause of reconsidering the decision and the committee thought it best not to show with only half the troupe.

# Weak Support for Division of Nye County

The Rhyolite Bulletin in a little inspired editorial, evidently meant to be an answer on the subject of county seat division, brings out some supposedly strong facts why the county should be subdivided. It says hundreds of people would be benefited. Probably so, but we would like to know when and where, and in what way they would reap this benefit. Even the towns of Beatty and Pioneer, located in the vicinity of Rhyolite, are up in arms against the proposed movement and are doing all in their power to defeat the bill for the naming of a new county when it is presented in the senate by Rhyolite's favorite son, Clay Tallman. The article further states that the new county would reduce expenses in Tonopah, but it fails to show any figures. It does not say a word about the debt of Nye county, amounting to \$110,000, and their willingness to take over half this debt. The proposed new county would leave the northern section with one and seven-eighths miles of taxable railroad property, while the southern would have miles and miles of the Tonopah and Tidewater, and the Clark railroads to subsidize upon.

"The taxpayers over the entire county would be paying less," is another statement made, and again there is that lack of figures and data to substantiate the contention. The burden of the taxes would fall heavily on the stockmen and heavy property owners in the northern section in their endeavor to pay off the county indebtedness, and this would have a strong effect in decreasing the value of real estate and all taxable property.

In conclusion the article says that "the Bulletin believes the present legislature is composed of intelligent men who will recognize at a glance the justice of the claim for Nye for division and give it home rule."

If one-half of the population of Nye county demanded the segregation of the county the legislature would be justified in making the division, but when a small coterie are working for personal interests alone, they can expect the intelligent legislature to act according to their own judgment and in conjunction with the wishes of nine-tenths of the residents and taxpayers of this county. Mr. Tallman was sent to the senate by the voters from the entire county and not alone by the efforts of Rhyolite and the stand and position he is taking comes as a beautiful surprise to those who favored him on election day. When his term of office expires and Mr. Tallman desires again to wear the senatorial toga he would best migrate to another county where he can start anew a sadder and wiser man.

### MAIL ORDER MEN LOSE BUSINESS

It is stated that the large catalog houses experienced the shrinkage in business the past year amounting to \$10,000,000. This was mainly due to the activity and systematic efforts put forth by the retail men. This is gratifying to the retail trade and indicates one of the most effective ways of combating the catalog houses and keeping the trade at home. If the retail merchants would realize more than some of them do that what the catalog is to the mail order houses, that the home papers are to the local merchants, the business of the mail order houses would show a still further decline to the great gain of the home trade and the prosperity of the home town. Business firms have tried all kinds of advertising, but experience proves that the most profitable is attractive and liberal advertising in the local papers.
